AREAS OF EXPERTISE

- ●● Full Stack Development
- ●● Frontend & Backend Development
- ●● RESTful API Design
- ●● Requirement Gathering
- ●● Software Development Lifecycle
- ●● Performance Optimization
- ●● Responsive UI/UX Design
- ●● Scalable Web Applications
- ●● Project Management

EDUCATION

- ●● **B.Tech. in CSE** from LBS College of Engineering Kasaragod | 2022
- ●● **HSC** from GHSS, Udma | 2018 | 90%
- ●● **SSLC** from CHSS, Chattanchal | 2016 | 97%

CERTIFICATION

- ●● MERN Stack Web Development Internship – Luminar Technolab, Kochi | 2023

SOORYAN K

Full Stack Developer – Next.js, React.js & Node.js

PROFILE SUMMARY

- **Full Stack Developer** with **6+ months of professional experience** developing and optimizing web applications using **Next.js** and **PostgreSQL**.

- Proficient in **React.js, Next.js, Node.js, Express.js, PostgreSQL, MongoDB, Prisma ORM, Supabase & TypeScript**, with expertise in designing RESTful APIs and secure authentication systems (JWT, NextAuth.js, Firebase Auth).

- Skilled in integrating **third-party APIs and services** such as Razorpay, OpenWeatherMap, and Resend, ensuring seamless user experiences and functional workflows.

- Experienced in **performance optimization,** SEO best practices, responsive UI/UX, and cloud deployment on Vercel, with a focus on clean, modular, and maintainable code.

- Strong **problem-solving, independent project execution**, and collaborative skills, capable of translating business requirements into efficient technical solutions.

TECHNICAL SKILLS

- **Frontend & Backend:** Next.js, React.js, Node.js, Express.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
- **Databases & ORM:** PostgreSQL, MongoDB, Prisma ORM, Supabase
- **Web & SEO:** SEO
- **Tools & Platforms:** VS Code, Git, Cursor, Vercel, Sentry

WORK EXPERIENCE

Feb'25 – Sep'25 | Full Stack Developer | K4rm4 Social Feedback Systems

Projects Undertaken:
Title: London News

*Description: Developed a modern full-stack news publishing platform using **Next.js, TypeScript, and Tailwind CSS**. For readers, the platform enables category-based article browsing, detailed stories, email sign-up and login, subscriptions, mood surveys & a live weather widget powered by OpenWeatherMap. For administrators, it supports full CRUD for articles, category and slug management, image hosting via Supabase Storage, user role management, real-time error tracking with Sentry and newsletter broadcasting via Resend.*

Highlights:
- Designed and implemented the entire platform independently, covering frontend and backend development.
- Built a responsive UI using Next.js App Router, TypeScript, and Tailwind CSS for seamless multi-device experience.
- Implemented secure authentication and role-based access control using NextAuth.js with JWT sessions.
- Integrated Supabase for PostgreSQL database, Prisma ORM, and image storage**,** ensuring scalable content management.
- Deployed the platform on Vercel, with newsletter broadcasting via Resend, weather API integration via OpenWeatherMap, and real-time monitoring through Sentry.

Technologies: Next.js 15.3.1, Tailwind CSS, Prisma ORM, PostgreSQL with Supabase, Supabase Storage, NextAuth.js, Sentry, OpenWeatherMap API, Resend, Vercel

Title: Washington Insider

Description: *Built a modern news publishing web application using **Next.js, TypeScript, and Tailwind CSS**, allowing readers to browse stories by category and view detailed articles through a fast, responsive interface. Integrated Supabase with Prisma ORM for efficient and scalable data management.*

Highlights:
- Handled end-to-end development independently, covering both frontend and backend.
- Developed a responsive and engaging UI with Next.js App Router, TypeScript, and Tailwind CSS.
- Integrated Supabase & Prisma ORM for database management & data modeling.
- Implemented optimized queries for category-based browsing and detailed article pages.
- Deployed & maintained the platform on Vercel with performance optimizations.

Technologies: Next.js, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL with Supabase, Vercel

INDIVIDUAL PROJECTS

Title: PETme Web Application

Description: *Developed a **peer-to-peer marketplace** enabling users to list pets and purchase pet food and accessories.*

Highlights:
- Built RESTful APIs using Node.js and Express.js for secure and scalable backend operations.
- Integrated Razorpay for seamless online payments and Firebase Authentication for secure user login.
- Designed and developed a responsive frontend with React.js, Bootstrap, CSS, and Material-UI to deliver a smooth user experience.
- Deployed and hosted both frontend and backend on Vercel ensuring optimal performance and availability.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase Authentication, Bootstrap, Razorpay, Material-UI, CSS
